

UBarU Camp & Retreat Center

Sky & Earth Youth Science Camp

UBarU is proud to offer a weeklong Astronomy and Science camp! Over this week of July 28-Aug 3, campers **ages 11-14 years** will be immersed in a variety of science and astronomy- related activities. The astronomy portion will include nights of observing and star parties centered around the UBarU Youth Astronomical Observatory, learning how to recognize and use constellations to navigate the night sky together with the associated sky lore, basic astrophotography, and solar viewing.

The science portion will concentrate on those topics that promote sustainability and good stewardship of the Earth, including water conservation, renewable energy, preserving the night skies and more. Instructional staff will include experienced astronomers and astronomy educators, as well as professionals and science-educators from the sustainability areas. There will also be enough free time to enjoy other activities, from hiking to foosball. **Cost of the camp is \$550 per camper if registered by June 23; \$600 per camper after June 23rd. For more information and to register, visit .**
